DISCLAIMING DECLARATION OF CO-AUTHORS OF PUBLICATION

We, Yee-Loy Lam, Jing-Yi Zhu, and Yun-Xi Shi declare as follows:

1. We have read and understood the specification and claims set forth in the above-identified patent application.

2. We are listed as co-authors along with the above named inventors on the following publications: "New Concept Technology Pressure-Variation Liquid Phase Epitaxy", SPIE Photonics Taiwan, July 2000, Conference Proceedings.

3. We confirm that, with respect to each and every oral and written disclosure set out above, we learned or received knowledge about the invention from the above named inventors, that we are not co-inventors of the subject matter of the above identified invention, that we merely were involved in respect of the invention to carry out assignments and work under the

supervision and direction of the inventors, and that we were merely listed as coauthors in order to receive credit for having collaborated in the research program under the above named inventor's direction.

We hereby declare that all statements made herein of our own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
